Why to choose us

By land, air and sea we reach our destination...

Geva Trans can make the impossible possible. We work along with a worldwide network of trusted agents and excel at providing customized solutions for our clients.

+ Benefits

Know-how

Our experienced and well-trained staff is ready to deliver an exemplary customer service throughout the entire process of freight forwarding. Based on our expertise and long experience, we fully meet the needs of our clients. Each client has a designated account manager to address all questions and transportation needs.

Coverage

We work with a worldwide network of trusted agents to plan and accomplish the shipment of your products from/to any destination of your choice

Our services extend from freight forwarding to custom clearance and ware housing to meet the needs of each client.

Flexibility

The details of your shipment are fundamental for us in order to provide you with a service that will make you happy. Towards this, we analyze and plan your shipment based on your needs to find the best solution for the shipment of your products by land, air, sea or intermodal freight transport.

Specialization

Our know-how and expertise have placed us within the few companies in our sector, which are able to do the impossible. We have been shipping overweight and oversized goods for more than 20 years all over the globe.

*We know the conditions,
we have the solutions,
we get the results.*

+ SERVICES

Land Transport

Our company was initially activated in the Balkan area specializing in freight transportation by land between Greece and Turkey, an area where it still holds a leading position. Our responsibility and professionalism have contributed to the expansion of our services to the entire Europe and to the Far East countries such as China and Hong Kong. Following the most recent trends and developments in our industry, we have lately introduced a new line of business from Greece and Turkey to Iran to meet the needs of our international clientele.

Sea Freight

Geva Trans is collaborated with a large network of Shipping lines worldwide to undertake maritime transport of goods to/from the major ports of the world. Sea Freight, either FCL or LCL, is tailored to your needs and is safely and reliably performed at competitive prices.

We also offer the following services:

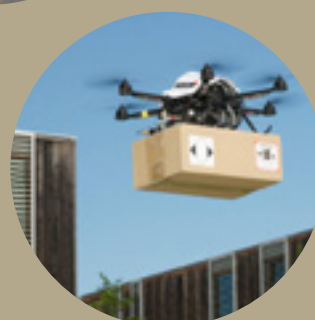

- Port to Port shipment*
- Door to Door shipment*
- Custom Clearance*

Air Freight

In the rapidly growing commodity markets, we know that time is crucial. Therefore, our team is here to ensure that your special needs and your time constraints and deadlines will be fully met. To achieve our aim, we work closely with a network of global carriers worldwide to secure the best possible rates for our clients. For GevaTrans, time is our ally and not our enemy. Special Project

With the creation of an extremely demanding clientele, a large part of our professional activity are the Special Projects which are carried out with absolute security in the Balkans, Europe and Asia. We have been shipping overweight and oversized goods for more than 20 years in all over the world and for that reason, they have placed us within the leading companies that are able to do the impossible
